

2nd meeting-11-02-2024

Agenda Items:

1. Progress Updates
2. Challenges and Roadblocks
3. Proposals
4. Next Steps

Meeting Minutes:

1. Discussed the current progress of the group project, and there are still some uncertainties regarding the establishment of the retrieval model. It is unclear which method would be more suitable. Through a review of the RAG model used in the exercise, the plan is to attempt similar solutions to see if more effective results can be achieved, thus advancing the progress.
2. To enhance the efficiency of the group work, while exploring the final model, Binwu Wang will also commence writing the report section, Wenzhuo Chen will start designing the final frontend portion.
3. The majority of the work is tentatively expected to be completed by the end of the month.
